#### Borrowing Money.

Borrowing money upon the instalment plan Borrowing money upon the instalment plan is attended with these advantages: The loan can be repaid in small mont by amounts which include the interest and part of the principal, so that by the expiration of the term it can be all paid without any great inconvenience to the borrower; the rate of interest is generally lower; the expenses of obtaining the money are not so great as in ordinary loans, and if it is borrowed upon good paying property then it often happens that the rems will meet the monthly instalments and in time pay off the debt.

For firther and other particulars enquire of W. H. J. BR-OKS,

Agent for Savings and Loan Society,
jei5tf No. 12 Spring street.

ANOTHER hopping pest has been

added to the inflictions of Kansas. This time it is toads. BEACH having demolished the BEECHER race, has announced that

he will close his argument to-day. PHELPS has opened the campaignopened it on the defensive. The candidate who is kept so busy defending himself that he has neither time nor

opportunity to attack his opponents, is

almost always defeated.

THE Express is working against the interests of Los Angeles with the zeal of a well paid attorney. In its issue of last evening it says: "It is perhaps well that the HERALD should be informed that an undertaking of great importance is under way. It is no less than moving the Los Angeles river, the orange groves, the Downey and Temple blocks, to Santa Monica. It is an enterprise of great pith and

THE Express appears to fully endorse the statements of the San Francisco lot speculators who are trying to make the people believe that Los Angeles does not amount to much, and that Santa Monica will be the great city. It says: "The HERALD advises such persons as propose to invest in Santa Monica lots to come down and take a look at the place before making the investment. Well, Santa Monica will repay an inspection both from a standpoint of pleasure and of profit."

# How to Improve the Park.

This city owns a block of excellent land which it is expected some day in the future, perhaps a hundred years hence, will be converted into a park, laid out in walks, and set out in ornamental trees. At this time it is only partially enclosed, and during the spring and summer seasons it is covered with a luxurious crop of malva. It is an unsightly waste, and something should be done to improve its appearance. In the Eastern States the method commonly resorted to by towns and cities having unimproved blocks without the means to beautify them, is to lease them for a term of years to landscape gardeners or others who, for the use of the soil, will leave the grounds covered with ornamental shrubbery and shade trees. Los Angeles does not appear disposed to expend the money necessary to improve her park, and under the circumstances we are inclined to the opinion that it would be better and more economical in the end to lease the ground to some one, the expiration of whose lease would leave it in a condition of which every resident in the city would feel proud. We have landscape gardeners here, any one of whom, we have no doubt, will be pleased to lease the park grounds and bind themselves to leave the premises covered with shade trees and flowers. We hope Mr. GEO. B. Davis, who is an accomplished landscape gardener, and has an abundance attends to all business in the way of of all kinds of evergreens and flower shrubbery, will read this item and that the Council will make arrangements with him, or some one else, which will ultimately convert our desert into a

> way to San Diego to preach next Sunday. He will return to Los Angeles on the Ancon next Monday and remain in the city next week. His room at the St. Charles Hotel was through this county lately. He buys least equal to any previous year for visited by a large number of citizens

LETTER FROM ORANGE.

The Saloon Question Settled-It Stays Away-Unly a Harmless Millinery Store Instead-Our Correspondent After the "Gazette Mau"-The Herald Subscription List Rolling Up-" Everybody takes it."

EDITOR HERALD: The saloon question is settled. " Don't shoot, David; they are determined to demoralize our young ladies." Two more new buildngs are needed at once, as there were three direct applications for the rental of the "saloon building" on Tuesday. If the Messrs. Davis choose to build them and rent them to the furniture and real-estate men, nobody will object. In a previous notice of THIS SALOON QUESTION,

Your correspondent remarked that Mr. Goldstein "will certainly consult his best interests by not coming" and that "he had best mind his top eye." Whether it was for this harmless bit of slang we cannot tell, but the Anaheim Gazette man waxed indignant last week, and whipped the people ol Orange with his straw switch, over your correspondent's shoulders. The "top-eye" of Messrs. Davis and Goldstein is in their purse, and they have concluded to "mind" it. Nobody anticipated "violence" or "lawlessness, except the Gazette man and others of his ilk, who know no force except physical force, and always raise that cry when their pets are attacked. But would not the honest course have been for the Gazette man to quote your correspondent's notes, or a part of them, at least, before garbling their meaning? Would it not have been honest for him to tell the fact, that the resolutions were backed by the signatures of one hundred and seventy-three citizens of Orange? After the Gazette man "gets himself into a werry great state o' admiration" at the digan inkling of the causes which led to nified and law-abiding character of the the rupture between George and the citizens of Orange, he pens this beau-

His delicate little suggestion is intended for you, Mr. Editor; and if your correspondent does not exhibit a greater aptitude for journalism than the Gazette man has shown in his unwise, illiberal and shabby treatment of the people on the East side of the Santa Ana river, then by all means "muzzle" him and "nip' his career at your earliest opportunity. Meantime, the Gazette man will continue to take his "nip" of Goldstein's best before writing his editorials, the HERALD will continue "the great paper of the Southwest," and saloon men will continue to "remain away from Orange."

Orange, June 16th, 1875. "Tell it All." We have, at last, examined a copy of that most extraordinary work-of which upwards of 30,000 copies have been sold to the present time, and which has excited so much genuine interest and attention in all sections of the country. We allude to Mrs T. B. H. Stenhouse's new book, entitled, "Tell it All." It is with great pleasure that we hail this remarkable work -the genuine history of a real Mormon woman. Two years ago the au-thor published a little pamphlet on Polygamy, which attracted considerable attention and created quite a sensation among the Saints. The Mormon papers took up the subject and, alluding derisively to the delicate reticence so natural to a sensitive woman, displayed by the author, spitefully invit-ed her to "Tell it All." Men and women of position in all parts of the country, who had visited her in Salt Lake City, urged her to seize the opportunity, "write a book," and lay the whole truth before the world. Mrs. Stenhouse ultimately consented and chose for the title of her new volume the words of derision used by her Mormon opponents — "Tell it All." Rev. I. S. Kalloch, pastor of the Metropolitan Church, San Francisco, arrived in this city yesterday on his way to San Diego to preach port of the agent for Los Angeles way to San Diego to preach port of the agent for Los Angeles way to San Diego to preach port of the agent for Los Angeles was a fine four-inch flow a few days since, also an inch flow. LETTER FROM TUSTIN.

Situation of Tustin - San Josquin Ranch-An Obstruction to Settlement-A Fine Sycamore Grove-The Character of the Soil-Great Crops-Castor Beans-Tustin Orchards-The Necessity of Work:

EDITOR HERALD: Tustin is situated on the border of the great San Joaquin I'll come down;" and down came the ranch. This ranch is held by a comcoon. That is the situation, in brief. pany of capitalists who offer none of Messrs. Davis & Bro, have bought off it for sale. It is considered here as a Mr. Goldstein, rented the building to great obstruction to the settlement of the "People of Orange" and obligated the county. Nearly all the available themselves not to encourage saloons land outside of the San Joaquin is cut hereafter in this place. The saloon up and sold, and the settlers need building has been re-rented for the more room to "spread out." Not an comparatively harmless purposes of a acre of this great tract can be purmillinery establishment. One of our chased, however, and a body of land citizens says, however, that "a new capable of sustaining in prosperity meeting must be called at once; since, thousands of enterprising men, is peonow that our young men are saved, pled only by bands of sheep with their keepers.

A pleasant feature of this place is its situation among a fine grove of sycamore trees. A majority of the houses are thus provided with pleasant shade without waiting for the slow growth of evergreens.

CHARACTER OF THE SOIL. There is no land in Anaheim, Santa Ana or Orange that surpasses the soil of Tustin. It is a body of loam, sandy in the Northern part, darker and poorer as we go South. There are spots of gravel, but these have their special crops and are nearly worth as much as the freer loam. The land here retains moisture surprisingly, if properly cultivated. In the corn fields you can find plenty of moisture almost anywhere at a depth of three or four inches. I rode through a field of fifteen acres of corn, from six to nine feet high, that has not been irrigated once this season. I believe the dence. statement of its owner, William A. Smith is true, that "You can put the weeds on the whole fifteen acres in your hat." It is the loosening of the soil that permits the water to rise near the surface. If our farmers gave twothirds of the attention to their crops here that is necessary in the Eastern States, the bugbear of irrigation would not be so great as it is made to appear. Mr. B. F. Maxson showed me a field of corn which almost equals that of Mr. Smith, that has had no

New Restaurant-A New Butcher

Shop-Other Improvements-A Liv-

ing Well-Condition of Crops. EDITOR HERALD:-Since our last

letter many and various changes have taken place. Mr. M. Guess has opened a first class restaurant, where all the dainties of the season can be had. It is no "guesswork" with "Mose," for he has all things at his command to make an epicure smile with delight. The increasing demand for new meat has caused Messrs. Hickey & Pietees to start another butcher shop. "Green" says that if they eat all the cattle to be found, he'll come the French on them and bring them a bronco mule. Our saddle and harness shop will soon be ready for occupancy. Mr. J. Orvis, recently from Iowa, will, in a few days, open a boot and shoe shop, and in connection therewith a saddle and harness shop. Mr. Summerfield, late with Mr. Frankle & Co., has opened a bran new store, where anything, from a hairpin up to a grinding stone can be had.

NEW BUILDINGS. Our friend Conrad, from Anaheim, is building a first class house to be used as a beer saloon and depot. "Con" has come to the conclusion that to do business he must go where live folks dwell, and Santa Ana is the place. Conrad will keep "temperance bar," so you need not be afraid to call and see him when you come down.

Artesian wells are all the go.

CONDITION OF CROPS.

Crops are looking fine throughout

Tustin City, showed us corn which had grown seven feet in two weeks without a drop of water since it was planted. Mr. Mills near the same

place, has an orange tree growing at the rate of an inch per day. How is that for high? We could enumerate many more such instances, but prefer to administer it in broken doses. If we were to tell Miss Helen, your fair engineer from Aarora, Illinois, that James Laymor, in the "Swamp," raised an an average of one hundred and thirty-one bushels of corn to the acre, we fear she would not believe us, yet such is the truth, and Mr. Chas. Laymor raised an average of one hundred and ten bushels per acre. Illinois is our native State, but it can't compare with Los Angeles county,

# The Festival Last Night.

The festival at Turn-Verein Hall last evening was a very pleasing affair. There was a good attendance, and full arrangements were made for entertainment. In addition to the 'goodies" prepared, the assemblage were delighted with a choice selection of tableaux, shadow pictures, music by the band, etc. Among the tableaux were "Frost Fairies," "Scene in an Artists Studio," "Vestal Virgin" etc. The shadow pictures, 'Drinking Scene,'
"Tooth-ache Man," "Tending the Biby," "Gymnastics," "Kissing Scene," and "Jumping Jacks," were interest-esting to say the least. The floral dis-play was creditable, everybody was in good spirits, and socially consid-ered, the evening was a decided success. At this early hour it is impossible to estimate the profit, but we hope the ladies will realize a handsome sum, as they deserve to. Want of space forbids our giving a more extensive notice.

### COMMON COUNCIL PROCEEDINGS.

The Council met in regular session last evening.

Present, Mayor Beaudry and Counclimen Workman, Leahy, Lichtenberger, Teed, Carmona, Huber, Robinson, Mullally and Mascarel.

Mr. Campbell was admitted as a member and took his seat. The minutes of the last meeting and adjourned meeting were read and

approved. The Mayor reported collection of fines for week, \$61, and receipts for lands, \$5,455. Also that lots 14 and 15 of the land recently sold still remain

unpaid. Ordered filed. The Mayor presented a detailed statement of arrests under his administration. Also the results of a personal investigation of the jail, showing that it is totally inadequate for the accommodation of prisoners. Ordered filed.

# FINANCE AND TRADE.

HERALD OFFICE, June 17, 1875. The foreign demand for gold still continues and the rate ranges about 117. Money in San Francisco seems to be working easier, and with the paymert of semi-annual dividends of local corporations money is becoming quite plenty. In Los Angeles the current rate is one to one and one-half per cent, per month, depending on the length of time and kind of loan. Money is in good demand at those figures, but with a liberal supply improvements and enterprises of all kinds are being pushed with vigor.

THE GRAIN MARKET. The export corn and wheat trade in New York has been very brisk during the past week. Large purchases were made last week in New York and Chicago for European account—mainly Belgum and Holland—cusing an advance of three to five conts on wheat and a slight advance in corn in the New York and a slight advance in corn in the New York mark-t. In Boston there is no change in the woo market. The latest reports to the San Francisco Bulletin show that there is considerable inquiry for combing and defaine fleeces, but prices are settling down and sales can only of made at concessions. There is a good stock of new Kentucky combing on hand, for which holders ask 50 cents, but 46:347 cents is all that could be obtained for it if rored on the market now. Very choice lots brought 50 cents, but the principal transactions of the week were understood to be at 47 cents, and the may be considered a fair quotation for average lots. #### Depth of American Lakes.

There is a mystery about the American lakes. Lake Erie is only 60 to 70 feet deep; but Lake Ontario, which is 592 feet deep, is 230 feet below the tidelevel of the ocean, or as low as most parts of the Gulf of St. Lawrence; and the bottom of Lake Huron, Michigan and Superior, although the surface is much higher, are all from their vast depths on a level with the bottom of Ontario. Now, as the discharge through the river Detroit, after allowing for the probable portion carried off by the evaporation, does not appear by any means equal to the quantity of water which the three upper lakes receive, it has been conjectured that a subterranean river may run from Lake Superior, by the Huron, to Lake Ontario. This conjecture is not impossible, and accounts for the singular fact that salmon and herring are caught in all the lakes communicatin with the St. Lawrence, but no others. As the Falls of Niagara must have always existed, it would puzzle the nauralist to say how these fish got into the upper lakes without some subterranean river; moreover any periodical obstruction of the river would furnish a not improbable solution of the mysterious flux and reflux of the lakes
